CONSIDER THE FOLLOWING QUESTIONS: What has taken the lives of innocent people at least six times over the amount of those who died fighting for our country during the Vietnam War? What is responsible for killing more citizens of our country under the age of forty each year than cancer and heart disease combined? What is the cause of sixty percent of all teenage deaths in America? And fifty percent of all highway deaths in our land each year? What substance has grown in popularity and in its use among our young Americans some ninety percent in the past few years? Finally, what has cost some \$85.9 billion dollars in our land due to business days lost, premature deaths, and health costs?

THE ANSWER--ALCOHOL!!!!! During the ten year period of the Vietnam War, some 45,000 United States soldiers were killed by the enemy. In the same ten years, 274,000 United States citizens died in auto crashes involving the use of

THE ANSWER--ALCOHOL!!!!! According to recent medical reports, intoxication mixed with automobiles now kills more persons under the age of forty each year than cancer and heart disease combined. Generally speaking, across the entire spectrum, cancer and heart disease are the number one and two leading causes of death in our land but not so with those under the age of forty.

THE ANSWER--ALCOHOL!!!!! Young teenage Americans are involved in one out of every five fatal accidents that occur with 9,000 teenagers (ages 15-19 years old) killed in motor vehicle accidents in 1990. Some sixty percent of fatally injured teenage drivers were found to have alcohol in their blood system prior to their crash, with some forty-three percent at legally intoxicating levels.

THE ANSWER--ALCOHOL!!!!! According to the Department of Human Services, alcohol use among teenagers is up some ninety percent over the last few years. In one study done out on the West Coast, some forty-five percent of the fourth and fifth graders surveyed consider themselves as "continuing users" of

THE ANSWER--ALCOHOL!!!!!According to USA TODAY article on March 21, 1992, the estimated costs to the United States economy in 1985 was \$70.3 billion dollars. By 1988, that estimation had increased to \$85.9 billion dollars from business productivity lost, premature deaths related to alcohol use, and rising health costs due to alcohol-related accidents.

As a minister of the gospel of Christ, I have seen the damage that alcohol has done in the lives of individuals that had succumbed to its influence. I have seen the wrecked homes, the diseased bodies, the weeping children, the slow-dying deaths of people that have engaged in the deadly potion we call alcohol.

In the USA article that was mentioned above, Barbara Yoder, in her book, THE RECOVERY RESOURCE BOOK, notes the following contributions that alcohol has made to the destruction and decadence of our American way of life, AL-COHOL HAS BEEN THE SOLE CONTRIBUTOR TO:

72% of aggravated assaults in our land. 83% of all fire deaths in America.

70% of sexual abuse, including rape & incest 69% of drownings. 60% of deaths and injuries from falls. 50% of murders.

Noted writer Evangeline Booth was right when she declared: "Drink has shed more blood, hung more crepe, sold more homes, plunged more people into bankruptcy, armed more villains, slain more children, snapped more wedding rings, defiled more innocent, blinded more eyes, dethroned more reason, wrecked more manhood, dishonored more womanhood, broke more hearts, blasted more lives, he tried to drown the event out of his mind. Notice some of the following curses of this evil called alcohol. The use of beverage alcohol causes THE WOE OF PHYSICAL CONSEQUENCES. A disturbed had been killed was Turner's only son, Randall!!! an intoxicant, a person can become insane. They may err in vision and stumble

Alcohol can cause THE WOE OF FINANCIAL DISASTER (Proverbs 23:21). Alcohol can incapacitate a man and make him unfit for usefulness. Because of drunkedness, people lose their jobs. For this reason, the use of alcohol brings the person and their family rags and crumbs.

Alcohol can produce THE WOE OF MORAL CALAMITY. Intoxicants can arouse dormant passions. The sin of drunkedness if often followed by other sins. One of these is sexual sin. Another is falsehood. While under the influence of alcohol, a person's words are often unreliable. Another sin is wrath. A drunkard will often

fight his very best friend. The use of alcohol can produce THE WOE OF GOD'S JUDGMENT. The Almighty has pronounced his judgment. No drunkard can inherit the kingdom of heaven, as the Apostle Paul stated in 1 Corinthians 6:9-10 and Galatians 5:19-

The Bible is filled with example after example of that liquor of any form (whiskey, beer, wine, etc.) has done to individuals that made the mistake of being involved in such sin. The use of alcohol caused a good man, Noah, to be brought to shame (Genesis 9:18-38). Nabal died after a drunken spree, having already lost the respect of his good wife (1 Samuel 25:33-38). King Ahasuerus sought to parade his queen before the lustful gaze of drunken princes, causing a separation of the royal pair (Esther 1:5-22). Ammon, drunk and unable to defend himself, lost his life to his assailant (2 Samuel 13:28). Elah, King of Israel, was assassinated in a time of drunkedness (1 Kings 16:9-10). Drinking leads to stubborness, rebellion, and gluttony and brings dishonor to parents (Deuteronomy 21:20). Violence can result in drinking alcohol of any form (Proverbs 4:17). Liquor produces sorrow, contentions, wounds without cause, babblings, and redness of eyes (Proverbs 23:32) Virtue was sold for the price of a drink of alcohol during the prophet Joel's day (Joel 3:3). Drink causes one to forget about God and others Amos 6:6). Alcohol can fill men's minds with adulterous and impure thoughts (Proverbs 23:33). Alcohol can lead to insecurity (Proverbs 23:34), and to shame and humiliation (Habakkuk 2:16).

The Bible is clear--the drinking of any kind of alcoholic form of beverage is dangerous and deadly to a person's character, to a person's life, to a person's eternal soul! Anyone who loves God will be sure to avoid the evils of alcohol in any way within their life or the lives of those they love.

A preacher friend of mine, Kenneth Davis, tells of a true story that United Press International reported many years ago. It's message to all Americans today is just as applicable and relevant today as the day these sad but true events took place some twenty-eight years ago. Here is UPI's accounting of this actual

"A man by the name of Wilson Thomas Turner was sitting in a bar. The place was Brandenton, Florida, September 12, 1964. He said to himself, 'One more drink won't hurt.' You might call it "one for the road." He bought another bottle to carry with him. He got into his car and started home. He had done it many times and his driving had always been good before. He started home. He had had a hard day and was anxious to get home and see his son, Randall, who was in the fifth grade. He had grown up so fast and Turner was proud of him. He always liked to spend some time with his son.

As he sped down the road, it seemed that he went faster and faster. Maybe the last drink dulled his senses some, but, he was in control, he thought, and so what did it matter. Suddenly, from a side street a boy on a bicycle appeared in front of the car. He swerved to miss, but struck the boy. For fear perhaps, the man left the scene of the accident. Later on, the police came to his home and arrested him. He was in the attic with the bottle that he had purchased, crying, as leased to go to the funeral of the young man his car had struck. This was the worst thing that ever happened in his life.

The newspapers told the story and added one more fact: The young man who

Sports fans were blessed Sunday afternoon with watching a dugout clearing brawl. A game in Baltimore, between the Orioles and the Scattle Mariners crupted into a 20 minute fight when a wild pitch hit the batter on the shoulder. Several players were injured and at least a half dozen ejected from the game. We have no sympathy for a highly paid professional ball player hurt in brawls, nor do we think ejecting only six is enough. Such actions are all to familiar on the tube today. Bigger fines,

President Bill Clinton continues to get negative reaction to many of his presidential ideas. In a country as large as America, with such a diverse population, a certain amount is to be expected on ANY idea. However, Clinton is getting more complaints than that, but there are signs he is hearing the message. The election of a Republican Senator in Texas last week is one of those signals. The woman campaigned against the proposals coming out of Washington during the past month, and won big. Washington experts are now telling us the president is turning away from some of his more radical, left leaning proposals, and is coming back to the center. We hope so.

more ejections and maybe lower priced contracts would curtail these

One idea coming out of Washington and landing smoothly on the voters is the idea that "Welfare mothers must work." The theory is that many middle class mothers work to help the family survive, so why shouldn't the welfare mother. There will surely be some moaning and groaning from those welfare mothers who have grown accustomed to (and like) the free meal ticket. We predict their complaints and cries of "my rights are being violated" will be overshadowed by the cheers from those who continue to face the daily grind for that weekly paycheck.

Our mind is apparently focused today on those folks in the Northeast. A news story on panhandlers in Washington, D.C. caught our eye. It seems this down-and-out man asked a lady for money. She refused and he yelled, "You need to give me money. You look like you cat too much anyway." We are not prone to give money to street beggars in those big cities. Therefore, to prevent having someone yell that at us (and it would be a truth we don't want to hear), we will stay away from the big city as

Thelma Folsom clark was born at the old Folsom farm that had been settled by her fore fathers in 1830. She was born Nevember 17, 1896. She married John Ross Clark. She never had children of her own, but her motherity instinct made her a mother to people of all ages. She was kind, considerate, and lovingly caring for all. She and Ross reared her nephew, Charles Ellis. Charles and Betty Joyce's daughter, Amylived with her for a while before the 1990 Flood. She baked wonderful pound cakes and always shared them. She often visited my mother in her later years. When her brother, "Big Jim" was Governor, she baked lady fingers, sand tarts, and other fancy foods, in quantities large enough for receptions and parties at the Mansion. She often drove up and carried them herself. She was always down to earth in all of her actions. Never in the least pretentious. When her Mother died shortly before Big Jim became Governor, she became, and accepted the role very graciously, as Matriarch of the Folsom Family. She was a wonderful lady and 1 proudly proclaimed her as my friend. Rest in peace.

The summer vacation may have just started last week for the kids, but at the Mularz house we've already had the first "two bath day" for the summer. Mclanic accompanied the rest of the family to a softball tournament in Enterprise last Saturday and by the time lunch came around she was so dirty we drove back to Elba for a hot bath. We went back to the tournament and this time it was 10:00 P.M. before we got back to the house; however, it wasn't too late for a bath, as Melanie went back in and tried to get clean once and for all. It worked, and I'm sure it will simply be the first of many days she gets to take more than one bath.

DON'T LET ALL-STAR TEAMS RUIN THE FUN

All-Star teams will be named in seven leagues in the next couple weeks and whether we like it or not, everyone can't be an All-Star and everyone can't make the teams. The All-Star teams are chosen a variety of ways, depending on which is best for the league, and no matter how hard the people try to get the best players on all the teams, some good players are the people try to get the best players on all the teams, some good players are left off and feelings are always hurt. BULLS & BARKLEY MAY BE A REAL SHOW

The NBA playoffs will end in the next couple of days and unless I miss my guess, the Bulls vs. Barkley show will be something to see.
